Prices rule irregular though the feeling is inclined to be more confident as the improved tone in the general financial situation is maintained, and greater ease in money matters is apparent everywhere. The movement of grain is lighter at most points, but just now this need cause no surprise, as farmers are factory as to prices, but robes sold either busy with barvest or are preparing for it, and present prices are not such as induce anyone to hurry grain to the State of Rec'ts. Price. Stock market. Freights, both by rail, lake and ocean, are steady, while the weather is pleasant and very favorable for harvest

Wheat is quite firmly held on account of the receipt of some good outside buying orders and the freedom with which some prominent local operators are taking hold. The healthiest development is the fact that the nearer deliveries are in in better demand than those more deferred, the premand than those more deferred, the premand that the second soul soulcast head. ninm between cash and September being considerably reduced. The flour trade is full, limits having been reduced on orders both from abroad and on Eastern account, while Canada is almost out of the market. Receipts of spring wheat have fallen off, and the new red winter has not yet begun to move in sufficient quantities to have any appreciable effect beyond scaring a few timid bulls. Judging, however, from samples received from different States where threshing has commenced, leading traders think the quality will be fully equal to the best crop of recent years. Shipments are only on a moderate scale, yet the supply is decreasing rapidly, and it is not thought that stocks now held in warehouses in this country, when present low prices are taken into account, need excite alarm. Great Britain also reports a large reduc-tion in her amount of grain in store. Im-

CHAPTER I.

Ask any or all of the most eminent physicians "What is the best and only remedy that can't relied on to cure all diseases of the kidneys an urinary organs, such as Bright's disease, diabete retention, or inability to retain urine, and all the diseases and ailments peculiar to women"—
"And they will tell you explicitly and emphatically "Bischu!"

Ask the same physicians
"What is the most reliable and surest cure for all liver diseases or dyspepsia, constipation, in igestion, biliousness, malaria, fever, ague c." and they will tell you:
"Mandraks! or Bandelion!"
Hence, when these remedies are combined with The Enquirer, a sidewheeler recently purchased up the Ohio to run between Greenville and Arkansas City, arrived from above yesterday, and was in port last night, making preparations to pass on the har destination. In another column will be found Capt. Ed Postal's unrivaled inducements for a short round trip up White river, away from business. He offers \$10 round-trip

"I guess it is only the bilots of the Paris C. Brown."

"But why should they fine the pilots of the Paris C. Brown for blowing her whis-tle, and not fine the pilots of the other boats for blowing theirs?"

"Because, my child, the Paris C. Brown's whistle is such a hell-roaring, mearthly whistle."
"But ain't the waterworks whistle jus like the Paris C. Brown's whistle? Ain't it a hell-roaring, unearthly whistle?" said

"Yes, my child," said the Christian mother. "I must acknowledge it is."

"Then why don't they fine the pilots of the water works for blowing their whistle at all unseemly hours, and disturbing the slumbers of the well and racking the fevered brains of the sick?"

"Damfino," said the Christian mother, as she resumed her sewing and the little one returned to her play.

Sr. Louis Globe-Democrat's Cairo special, July 11th: "It is hinted that the Cincinnati and Memphis Facket Company has other objects in view in the establishment of the new line of boats to Paducah than the simple acquisition of filthy lucre, of which the company already possesses a goodly quantity. It is not improbable that the boets, while attending to all the business offered, may find time to administer a little wholesome retaliation toward the several short packet companies in the lower Ohio, who have for months gone unside of their legitimate trade to assist in the demoralization of Memphis packet rates, and have at all times been able to develop such sympathy for a certain weekly packet out of Cincinnati as to induce them to cheerfully carry out any contracts she muy have made, in order to develop such sympathy for a certain weekly packet out of Cincinnati as to induce them to cheerfully carry out any contracts she muy have made, in order to compel the Memphis boats to carry freight to lower Ohio points at ruinous rates. MOTHER'S

I most carnestly entreat every female expecting to be confined to use Mother's Relief. Coupled with this entreaty I will add that during a long obstetrical practice (forty-four years), I have never known it to fail to produce a safe and quick delivery.

H. J. HOLMES, M.D. A lady from one of the counties of Middle Guer

gia who has been acting as midwife for many years, writes: "I have disposed of all the Mother's Friend you sent me, and I am delighted with it. In every instance where it has been used its effects have been all that I could ask. I con-

confinements, and recovered from its effects in much less time. She also recommended it to a lady friend who was about to be confined for the first time, and she says: 'I have never seen any one pass through this great trial with so much case and so little suffering.'"

A QUICK AND EASY TIME. A distinguished physician of Mississippi writes:
"Every one expecting to be confined should use
the Mother's Friend, for during a long obstetric practice I have never known it to fail to produce a quick and safe delivery."
